Mt Smart Stadium West Stand - expertly tailored solutions

Lateral thinking, meticulous planning, innovative solutions, extensive experience, essential H&S, complete with strict quality control

As with the Mt Smart Stadium West Stand job Seitech offers complete strengthening solutions tailored to every project.

Complex, multi-faceted work is second nature to us so we are happy to take on jobs that others think are too difficult. We lead our field in full technical capability.

Our professional and highly collaborative approach ensures all parties are well informed every step of the way. We pride ourselves with a premium service where all projects are meticulously planned and coordinated.

Having a single point of contact for clients ensures clear communications through the entire process.

Our strong business acumen is reflected in the number of significant projects we have already ticked off, including the Mt Smart Stadium West Stand.

"Seitech proved to be highly effective and efficient in undertaking the West Stand work, and importantly to us, was very willing to collaborate and work around our event programme to complete the project in a manner that best met our needs."

James Parkinson, Regional Facilities Auckland
