To whom it may concern

Reference for Seitech Technologies Ltd

We have recently engaged Seitech Technologies Ltd to undertake two strengthening work contracts for Naylor Love. 1) Auckland Domestic Airport Domestic Terminal Upgrade Project 2) LSG Sky Chefs Flight Kitchen Project.

We have found them to be extremely effective in their work, able to solve problems that arise and work closely with our site team and sub contractors in a highly collaborative manner. They work self sufficiently and keep all parties well informed of progress.

Seitech arrive well prepared and depart with a quality job completed demonstrating a professional approach to on site and off site management. We wish every sub-contractor were as efficient and capable as they are

We look forward to working with Seitech on other project in the near future and would not hesitate to recommend their services to any project.

Yours faithfully

Grant Snell
